(Monopolization of the Publics Airways.) (Extinguish the Publics
Constitutional Rights and Free Enterprise)

Regress all NAB and NPR Radio Stations to 10 to 3000 Watts to serve
their
Community of License.

A stable society is an inclusive and just society.

The LPRS, is designed to encourage a diversity of cultures represented
on the airwaves by encouraging a diversity
of ownership/control. A diversity of people and organizations with
different values and priorities will create a more
inclusive media (and therefore government policy) because they will have
different definitions of what is
newsworthy and viable for sharing on the public=92s airwaves.

"People of the same trade Ed Frits NAB seldom meet together,
even for merriment and diversion,
but the conversation ends
in a conspiracy
against the public, to steal their Airspectrum".

Mergers allowed by the 1996 Telecom Act have brought U.S. close to a
monopoly disaster ... there is no competition to speak of and the
National
Association of Broadcasters (NAB) plans to ensure that it stays that way
at
your expense! Give Mrs.D'Alessandro her Airspectrum Back,that you the
NAB Stole.

Dear Commissioners and Commission staff,

Mr. Joseph D'Alessandro Hereby submits a request and or Petition to the FCC

,to make into Law,that all NAB,and NPR Radio Stations must Regress all power (ERP) watts,to 10 to 3000 Watts to serve their Community of License,and abide by the Custom Laws Of A Nation and the Communications Act's. This will open the Free Market to the American Citizens across the United States,to Serve and Use their Airspace to Broadcast to their Community's.

Philosophical and Legal Foundations of Commercial Radio

The basic landmark agreement between commercial radio and the people of the

United States was established in the Communications Act of 1934 and has become the unifying thread of all telecommunications laws since then. The basic agreement was actually established in the years before.

This important law established basic philosophical principles:
The airways are public property.
Commerical broadcasters are liscensed use the airways.
The main condition for use will be whether the broadcaster served "the public interest, convenience, and necessity."
